How to add services to your Nissan navigation system? 10. What apps can you get on Nissan Connect? 11. How to copy your navigation map on an SD card? What is NissanConnect Navigation? To get the most out of your navigation system, it is important to understand how it works. NissanConnect Navigation is powered by the NissanConnect Navigation System which provides drivers with the tools, options, and information necessary to stay on course. The NissanConnect Navigation System includes a 6.5-inch touch-screen, a wireless communications system, and dual front/rear-view cameras that provide drivers with clear and convenient access to live road directions and other driving information. The NissanConnect Navigation System is a highly sophisticated GPS navigation system that provides drivers with a wealth of information, such as live traffic alerts and real-time local service information, along with a variety of entertainment and music options. The NissanConnect Navigation System's unique capabilities also allow drivers to locate their vehicle, find the closest restaurants and service stations, plan trips, and even customize their experience with a wide range of functions, including route guidance, spoken directions, point-of-interest/address searching, and real-time rerouting. How do I update my Nissan
