Connecting multiple models from Revit 2017 to SQL Express 2014. using explorer. When working with Revit, it is sometimes necessary to include multiple models in a project. To do this, \*.m3u is used as a connection file - a file that contains all the necessary data for linking. The file itself is located in the Revit directory. It contains the following information:  Username to connect. In our case, this is root.  Password.
